

LGBTQIA+ Pride Month Resource Toolkit 2022

In the early morning hours on June 28, 1969, a police raid at the Stonewall Inn in the Greenwich Village neighborhood of Lower Manhattan turned violent when residents fought back against the routine discriminatory police action. Tensions continued to erupt between activists and police in the weeks to follow with residents demanding their right to live openly in their sexual orientation without fear of violence or arrest. It was a watershed moment in the American LGBTQIA+ Movement.

Today, Pride Month is first and foremost a commemoration of the Stonewall Riots, as well as a continued pursuit of dignity and equality for all people. This toolkit, curated by the National Women's History Museum, offers a variety of resources to use throughout this month and beyond, including biographies, events, and programming.
